Automatic Control

CATAD system for combined sewage flows....Aug. 46
Fluidics-an emerging technology....Mar. B-11

AWWA

AWWA dedicates five historic structures....Oct. 45
AWWA Elects Officers 1969-1970....Mar. 58
AWWA honors outstanding members....May 81

Bacteriological Analysis

Monitoring for fecal organisms....Jan. 38
Removal of organic colloids by microflotation.May C-7

Biochemical Oxygen Demand

Continuous recording....Jan. 26

Biological Treatment

Aerated stabilization basin treatment of white water....July D-1
Compact activated-sludge treatment of combined petrochemical-municipal waste....May C-1
Modern Aeration Techniques....June 31
New approach to aerobic treatment of wastes.July D-12
Organics removal by a selected trickling filter media....Jan. A-22
Pollution abatement of a distillery waste...May C-20

Biology

Biology: plants and bacteria....July 50
Biology: the science of living things....June 39

By-products

By-product recovery and pollution control..Sept. E-26
Pollution control can be profitable....Nov. F-14
South Africa reclaims effluents as industrial water supply....July D-20

Centrifuging

What the wastewater plant engineer should know about centrifuges....Nov. 42, Dec. 35

Chemical Analysis

New dimensions for the old jar test....Dec. 49
Versatility and flexibility are key elements of FWPCA's mobile laboratory....May 88

Chemical Processing Wastes

Environmental management as a petrochemical facility....Jan. A-1
Pollution control can be profitable....Nov. F-14
Ranges of separation processes....Nov. F-16

Chemicals

1-Aluminum sulfate (filter alum)....Nov. 53
2-Aluminum sulfate (liquid alum)....Dec. 46

Chemical Treatment

Industrial management of wastewater....May C-11
Pilot plant studies of effluent reclamation....Nov. 38

Chemistry

Manassas, Va., adds nutrient removal to waste treatment....Apr. 46
The chemistry of living things....May 64

Clarification

Fundamental aspects of sedimentation..Feb. 47, Mar. 44
Steel company builds flexible wastewater treatment system....Mar. B-1

Coagulants and Coagulant Aids

Field use of a cationic polymer for clarification....June 42
New dimensions for the old jar test....Dec. 49

Coagulation

Industrial water supply–Selection of water treatment processes....July D-24, Sept. E-32

Communications

A systems approach to water pollution control..July 43

Computers

A systems approach to water pollution control.July 43
Fluidics-an emerging technology....Mar. B-11

Conservation, Water

Guide Lamp combines treatment of water & wastes....Sept. E-22
State and federal action for clean water....Oct. 48

Construction (General)

How to select and use a consulting engineer.Sept. E-20

Construction, Sewers

Dartmouth, Mass., builds a sewer system....Sept. 70

Controls

Fluidics-an emerging technology....Mar. B-11

Cooling Water

Reuse of industrial cooling water....Jan. A-6
Steel company builds flexible wastewater treatment system....Mar. B-1

Corrosion Control

Corrosion-resistant coatings for wastewater treatment plants....May 52
Desalting plant supplies water to St. Croix V. I., alumina facility....Nov. F-17
External corrosion of buried ferrous pipelines/1....Nov. 45, Dec. 40

Cost Data

Fresh water supplies through desalination....Nov. F-7
Nashville's sewer services go metropolitan....June 48

Definitions

Definitions/4....Nov. 37
Let's come to terms . . . again....Nov. 57

Desalting

Desalting plant supplies water to St. Croix V. I. alumina facility....Nov. F-17
Freeze-desalting process for water supply and industrial waste treatment....Nov. F-20
Fresh water by the vertical-tube evaporation process....Nov. F-23
Fresh water supplies through desalination....Nov. F-7
Industrial desalting—water supply and waste disposal....Nov. F-10
Pollution control can be profitable....Nov. F-14
St. Thomas desalting-power plant produces 2.5 mgd water....June 28
Water desalting techniques-A summary....Nov. F-1

Design

Aerated stabilization basin treatment of white water....July D-1
An activated sludge plant for Oro Loma Sanitary District, Calif....Sept. 72
An addition to Galesburg, Ill., wastewater plant....Sept. 76
Causes and cures of cavitation in centrifugal pumps....Jan. 34
Desalting plant supplies water to St. Croix V. I., alumina facility....Nov. F-17
Design and planning of water pollution control plants....Feb. 30
Effect of specific speed on centrifugal pump operating characteristics....Mar. B-24

Hartford water pollution control plant.....Oct. 59
Hornell wastewater treatment facilities.....Sept. 80

Aerated stabilization basin treatment of white water....July D-1

Standards
Where are water quality standards heading?..May C-16

Storm Sewers
Steel storm sewer saves money for Phoenix...Apr. 56

Systems Analysis
A systems approach to water pollution control.July 43

Tastes and Odors
Use of potassium permanganate at Bowling Green, Ohio....Oct. 46

Technology Briefs....Jan. 12, Feb. 12, Mar. 14, Apr. 12, May 14, June 12, July 14, Aug. 12, Sept. 14, Oct. 12, Nov. 16, Dec. 12

Thickening, Sludge
Fundamental aspects of sedimentation/1....Feb. 47
Fundamental aspects of sedimentation/2....Mar. 44

Treatment Plants
A multi-city sewage treatment plan....Oct. 40
An activated sludge plant for Oro Loma Sanitary District, Calif....Sept. 72
An addition to Galesburg, Ill., wastewater plant....Sept. 76
Corrosion-resistant coating for wastewater treatment plants....May 52
Dartmouth, Mass., bulids a sewer system....Sept. 70
Design and planning of water pollution control plants....Feb. 30
Direct cycle water reuse provides drinking water supply in South Africa....May 66
Guide Lamp combines treatment of water & wastes....Sept. E-22
Hartford water pollution control plant....Oct. 59
Hornell wastewater treatment facilities....Sept. 80
James River Plant of Hampton Roads Sanitation Division....Sept. 78
Junction City improves sewage treatment plant....Sept. 66
Manassas, Va., adds nutrient removal to waste treatment....Apr. 46
Orrville, Ohio, improves wastewater treatment plant....Sept. 63
Pollution abatement of a distillery waste...May C-20
Silver Creek acquires sewer system and treatment plant....Sept. 68
Stanley, N. C., plant treats municipal and industrial wastes....Sept. 62
Waste disposal plant a seven-year success at Greensboro, N. C....Dec. 43
Wastewater treatment facilities expanded in Dodge City, Kans....Dec. 38
Water reclamation at South Tahoe....Apr. 36
Wyoming Valley Sanitary Authority wastewater treatment plant....Sept. 74

Trickling Filters
Organics removal by a selected trickling filter media....Jan. A-22

Turbidity
Adsorption and filtration with granular activated carbon....Aug. 39
Turbidity measurement aids chemical feeding..Jan. A-20

Valves
First valve insertion in reinforced concrete cylinder pressure pipe....May 70
Selection of proper drilling and tapping machines and related equipment....May 54

Washington News....Jan. 10, Feb. 10, Mar. 12, Apr. 10, May 12, June 10, July 10, Aug. 10, Sept. 12, Oct. 11, Nov. 12, Dec. 10

Wastewater Disposal (General)
Steel company builds flexible wastewater treatment system....Mar. B-1
The application of package wastewater treatment plants to suburban areas....Dec. 33

Water Mains
First valve insertion in reinforced concrete cylinder pressure....May 70

Water Quality
A total system concept of water pollution control....July 36
Detroit develops water supply from Lake Huron....Apr. 40
Direct cycle water reuse provides drinking water supply in South Africa....May 66
Identifying and characterizing waters from different sources....Mar. 43
NCASI holds successful paper week meeting.May C-15
New horizons in San Diego....May 48
Parisian water gets ozone treatment....Sept. 83
Pittsburgh gives its water the air....June 51
Reversing environmental decay....July D-10
Solving water quality problems....Apr. 43
Standards for drinking water and direct reuse.Apr. 44
The cost of improving water quality in the Great Lakes....Jan. A-28
Versatility and flexibility are key elements of FWPCA's mobile laboratory....May 88
Where are water quality standards heading?..May C-16

Water Resources
Reversing environmental decay....July D-10
State and federal action for clean water....Oct. 48
Use of reclaimed water....July 54
Water reclamation at South Tahoe....April 36

Water Reuse
A total system concept of water pollution control....July 36
By-product recovery and pollution control..Sept. E-26
Diatomite filtration in a board mill....Mar. B-5
Direct cycle water reuse provides drinking water supply in South Africa....May 66
Freeze-desalting process for water supply and industrial waste treatment....Nov. F-20
Guide Lamp combines treatment of water & wastes....Sept. 22
Irrigation with reclaimed wastewater....Apr. 58
Pilot plant studies of effluent reclamation....Nov. 38
Pollution control can be profitable....Nov. F-14
Reuse of industrial cooling water....Jan. A-5
South Africa reclaims effluents as industrial water supply....July D-20
Standards for drinking water and direct reuse..Apr. 44
The Dallas philosophy—an approach to wastewater reclamation....Sept. 58
The indirect cycle of water reuse....Feb. 35
Use of reclaimed water....July 54
Water reclamation at South Tahoe....Apr. 36
Water reuse research—a global look....Mar. 36

Water Softening
Continuous ion exchange softening....Jan. 28
Ion exchange softeners/4....Feb. 51, Apr. 52

Water Supply (General)
A total system concept of water pollution control....July 36
Detroit develops water supply from Lake Huron.Apr. 40
Fresh water supplies through desalination....Nov. F-7
Identifying and characterizing waters from different sources....Mar. 43
Industrial desalting—water supply and waste disposal....Nov. F-10
St. Thomas desalting power plant produces 2.5 mgd water....June 28
The PHS position on public water supply....Feb. 45
Training public health engineers in Pakistan.Aug. 34
2020 Vision/1....May 74

Well Supplies
A total system concept of water pollution control....July 36
Hydraulically backwashed well screens used as intakes....Mar. 52

WPCF
WPCF makes annual awards in Dallas....Dec. 48
